AHMAD RAZA

App Developer

About Me

I'm a Flutter Developer. I had started coding since 2020 and become a professional developer in 2022. I have great interest in coding, logic building and Requirements engineering. In short logics inspire me. I had worked in Coding Solution 24 and developed a bundle of apps there else that I had developed other apps.
I had believe in myself if I want to do something then I'll complete it. I'm very hardworking.

Achievements/Tasks

- As a App Developer I had Developed four Apps Till now. The Taxi Booking App including three Apps (User Side, Driver Side and Admin Side). Provide the facility to book a taxi for yourself or someone else in advance. Google maps and online Payments are integrated. Saves time.
- Beautiful UI of Medical Appointment Booking App.
- Let's Chat is a chating app I had developed using firebase. provide secure Conversation. Avoid third party involvement.
- Google maps integration in an app and performed multiple operations on it.
